## *Reaching Beyond our City Limits*

*Life Chain 2021 – Schreiber, ON*

Although our local Hymer's Fall Fair did not proceed as usual again this year, Right to Life was able to provide materials and support for a pro-life display at the well attended annual Emo Fall Fair. Organized by Petra Gerber, the display was well received and the life-sized fetal models were, as always, an excellent tool for discussion and for introducing children, and teens to the miracle of life in the womb. The display also provided an opportunity to engage and encourage pro-life individuals in the community. We look forward to supporting more pro-life events and initiatives like this in more and more communities beyond our city limits!

Thanks to a few dedicated members stepping forward, **LIFE CHAIN** continued in Thunder Bay and beyond this year! An inaugural **LIFE CHAIN** was held in Schreiber, organized by Georgette Cebrario with about 30 participants! They found the truckers on the high-way to be very receptive although they received some negative feedback from local youth. This reinforces the vital need to get the truth about abortion to the youth in our communities. **Georgette says "we will have another one next year."**

We're encouraged by these initiatives and hope to see more towns and communities in and around Thunder Bay organize **LIFE CHAINS** and other pro-life events in the future. Thanks to the support of our members, we are able to provide the support and information needed including financial assistance, printed materials such as signs, pamphlets, press release documents etc. It's never too soon to start planning ahead for next year's **LIFE CHAIN** or other events. If your youth group, church, school, or other organization or group is considering doing so please reach out to us today for information and direction! Thank-you again to those who stepped-up to organize this year's successful **LIFE CHAIN** events and to all those who participated.

**THUNDER BAY**

Ads continue daily on UCB Radio 95.1FM. Topics include abortion pill reversal, post-abortive healing for women and men, and the need for a stronger pro-life generation. Your donations enable us to continue writing and producing ads to inform and engage UCB's loyal listeners with the truth about abortion, sparking further pro-life discussions in homes, schools and workplaces.

**"Never underestimate the power of a small group of committed people to change the world. In fact, it is the only thing that ever has."**  
~ Margaret Mead~
